The adoption of the above amendments, revisions, improvements to accounting standards and interpretations did not have any effect on the financial statements.

Notes to the Financial Statements

For the year ended June 30, 2014

4.2 Current versus non-current classification

The Company presents assets and liabilities in balance sheet based on current / non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

4.3 Property, plant and equipment

(a) Owned

These are stated at cost less accumulated depreciation and impairment loss except for freehold land and capital work-in-progress which are stated at cost.

Depreciation is charged to the profit and loss account applying the reducing balance method except for computer equipment and jigs and fixtures which are depreciated on straight line method at the rates specified in note 7 to the financial statements. Depreciation on additions is charged from the month of addition and in case of deletion, up to the month preceding the month of disposal.

Maintenance and normal repairs are charged to profit and loss account as and when incurred. Major renewals and improvements are capitalized and the assets so replaced, if any, are retired.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit and loss account when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Leasehold land is amortised in equal installments over the lease period.

(b) Leased

Assets held under finance leases are initially recorded at the lower of the present value of minimum lease payments under the lease agreements and the fair value of the leased assets. The related obligations under the lease less financial charges allocated to future periods are recorded as a liability.

These financial charges relating to the lease are allocated to accounting periods in a manner so as to provide a constant periodic rate of interest on the outstanding liability.

Depreciation is charged at the same rates as charged on the Company's owned assets.

4.4 Investment property

Investment property is stated at cost less accumulated depreciation and impairment, if any. Depreciation is charged on reducing balance method at the rate specified in note 8 to the financial statements.

Notes to the Financial Statements

For the year ended June 30, 2014

4.5 Impairment of non-financial assets

The carrying values of assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or related cash-generating units are written down to their recoverable amount.

4.6 Investments

Subsidiaries and associates

Investment in shares of the Company's subsidiaries and associates is stated at cost. Provision is made for impairment, if any, in the value of investment.

Others

Held-to-maturity

These represent non-derivative financial assets with fixed or determinable payments and fixed maturities in respect of which the Company has the positive intent and ability to hold till maturity. These investments are recognized initially at fair value plus directly attributable costs and are subsequently measured at amortized cost using effective interest rate method. Gains and losses are recognized in profit and loss account when the investments are derecognized or impaired, as well as through the amortization process.

Designated investments at fair value through profit or loss

Designated investments at fair value through profit or loss are initially recognized at fair value. Subsequently, these are measured at fair value whereas effects of changes in fair value are taken to the profit and loss account.

Available-for-sale

These are non-derivative financial assets which are intended to be held for an indefinite period of time but may be sold in response to the need for liquidity or changes in interest rates.

These investments are initially measured at fair value plus transaction costs and subsequently carried at fair value. Changes in fair value are taken to a separate component of other comprehensive income until the investment is derecognized or determined to be impaired, at which time the cumulative gain or loss recorded in other comprehensive income is recognized in profit and loss account.

4.7 Stores, spares and loose tools

Stores, spares and loose tools are stated at cost which is determined by the weighted moving average cost method except for those in transit which are valued at actual cost. Provision is made annually for slow moving and obsolete items.

4.8 Stock-in-trade

Stock-in-trade, except goods-in-transit, is stated at the lower of Net Realisable Value (NRV) and cost determined as follows:

Raw and packing materials	-	Purchase cost on weighted moving average basis
Work-in-process	-	Cost of materials, labour cost and appropriate production overheads
Finished goods	-	Cost of materials, labour cost and appropriate production overheads

Goods-in-transit are valued at purchase price, freight value and other charges incurred thereon upto the balance sheet date.

NRV signifies the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

4.9 Trade debts and other receivables

Trade debts originated by the Company are recognized and carried at original invoice amount less provision for impairment. Provision for impairment is based on the management's assessment of customers' outstandings and creditworthiness. Bad debts are written-off as and when identified.

Other receivables are carried at cost less provision for impairment, if any.

Notes to the Financial Statements

For the year ended June 30, 2014

4.10 Ijarah rentals

Ijarah payments for assets under Ijarah arrangements are recognised as an expense in the profit and loss account on a straight line basis over the Ijarah term.

4.11 Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise of cash in hand, bank balances and short term investments with a maturity of three months or less from the date of acquisition net of short-term borrowings. The cash and cash equivalents are readily convertible to known amount of cash and are therefore subject to insignificant risk of changes in value.

4.12 Taxation

(a) Current

The charge for current taxation in respect of certain income streams of the Company is based on Final Tax Regime at the applicable tax rates and remaining income streams at current rate of taxation under the normal tax regime after taking into account tax credits and rebates available, if any, or 1% of turnover whichever is higher. The Company had also availed Group tax relief under the provisions of Section 59AA and 59B of the Income Tax Ordinance, 2001 as explained in note 18 to the financial statements.

(b) Deferred

Deferred tax is provided using the balance sheet liability method, on all temporary differences at the balance sheet date between the tax basis of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carry forward of unused tax assets and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

4.13 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company.

4.14 Borrowing costs

Borrowing costs that are directly attributable to the acquisition and construction of assets and incurred during the period in connection with the activities necessary to prepare the asset for its intended use are capitalised as a part of the cost of related asset.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

4.15 Staff retirement benefits

Defined Contribution plan

Provident fund

The Company operates a recognised provident fund for its permanent employees. Equal monthly contributions are made to the fund by the Company and the employees in accordance with the rules of the scheme. The Company has no further obligation once the contributions have been paid. The contributions made by the Company are recognised as employee benefit expense when they are due.

Notes to the Financial Statements

For the year ended June 30, 2014

Retirement benefit fund

The Company operates a funded scheme for retirement benefits for all employees on the basis of defined contribution on attaining the retirement age with a minimum qualifying period of ten years which is managed by a Trust.

4.16 Compensated absences

Accrual is made for employees' compensated absences on the basis of accumulated leaves and the last drawn pay.

4.17 Provisions

General

Provisions are recognised in the balance sheet where the Company has a legal or constructive obligation as a result of past event, and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect current best estimate.

Warranty obligations

The Company recognizes the estimated liability to repair or replace products under warranty at the balance sheet date. These are recognised when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually.

4.18 Revenue recognition

- Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, which is usually on dispatch of the goods.
- Dividend income is recognised when the right to receive the dividend is established.
- Profit on Term Deposit Receipts is recognised on constant rate of return to maturity.
- Profit on bank deposits are recognised on accrual basis.
- Rental income arising from investment property is accounted for on a straight-line basis over the lease terms.

4.19 Foreign currency transactions

Foreign currency transactions are translated into Pak Rupees at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pak Rupees at the exchange rates prevailing at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using exchange rates at the date when the fair value was determined. Exchange gains or losses are included in profit and loss account of the current period.

4.20 Financial Instruments

Financial assets and financial liabilities

Financial assets and financial liabilities are recognised at the time when the Company becomes a party to the contractual provision of the instrument. Financial assets are de-recognised when the contractual right to future cash flows from the asset expires or is transferred along with the risk and reward of ownership of the asset. Financial liabilities are de-recognised when obligation is discharged, cancelled or expired. Any gain or loss on de-recognition of the financial asset and liability is recognized in the profit and loss account of the current period.

Offsetting

Financial assets and financial liabilities are set off and the net amount is reported in the financial statements only when the Company has a legally enforceable right to set off and the Company intends to either settle on a net basis, or to realize the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also offset and the net amount is reported in the financial statements.

4.21 Research and development expenditure

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects are recognised as intangible assets to the extent that such expenditure is expected to generate future economic benefits. Other development expenditure is recognised as an expense as incurred.

Notes to the Financial Statements

For the year ended June 30, 2014

4.22 Dividends and appropriation to reserves

The Company recognises a liability for dividend to equity holder when it is authorized as per corporate laws in Pakistan. The transfer of reserves within the equity are reconized when these are approved as per the applicable laws.

5. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

In the process of applying the accounting policies, management has made the following judgments, estimates and assumptions which are significant to the financial statements:

	Notes
determining the residual values, useful lives and impairment of property, plant and equipment	4.2, 4.3 & 7
valuation of inventories	4.7, 4.8, 13 & 14
provision against trade debts	4.9 & 15
provision for tax and deferred tax	4.12, 12, 18 & 32
warranty obligations	4.17 & 22.4
impairment on non financial assets	4.5
contingencies	24

6. STANDARDS, INTERPRETATIONS AND AMENDMENTS TO APPROVED ACCOUNTING STANDARDS THAT ARE NOT YET EFFECTIVE

The following amendments and interpretations with respect to the approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standard or interpretation:

Standard or Interpretation	Effective date (annual periods beginning on or after)
IFRS 10 – Consolidated Financial Statements	01 January 2015
IFRS 11 – Joint Arrangements	01 January 2015
IFRS 12 – Disclosure of Interests in Other Entities	01 January 2015

IAS 32 – Offsetting Financial Assets and Financial liabilities – (Amendment)	01 January 2014
IAS 36 – Recoverable Amount for Non-Financial Assets – (Amendment)	01 January 2014

The Company is currently evaluating the impact of the above revisions, amendments and adoption of the standards on the Group's financial statements in the period of initial application.

In addition to the above standards and interpretations, amendments to various accounting standards have also been issued by the IASB. Such improvements are generally effective for accounting periods beginning on or after 01 July 2014. The Company expects that such improvements to the standards will not have any impact on the Company's financial statements in the period of initial application.

Further, following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

Standards	IASB Effective date (annual periods beginning on or after)

Accordingly, the Company adjusted its tax liabilities for the tax years 2008 to 2010 by acquiring the losses of its subsidiary company and consequently an aggregate sum of Rs. 593.466 million equivalent to the tax value of the losses acquired has been paid to the subsidiary company.			
The original assessments of the Company for the tax years 2008 to 2010 were amended under Section 122(5A) of the Ordinance by the tax authorities by disallowing Group Relief claimed by the Company under Section 59B of the Ordinance aggregating to Rs. 593.466 million. The Company preferred appeals against the said amended assessments before the Commissioner Inland Revenue (Appeals) who vide his orders dated 10th June 2011 and 11th July 2011 has held that the Company is entitled to Group Relief under section 59B of the Ordinance. However, the tax department filed an appeal before the Income Tax Appellate Tribunal against the Commissioner Inland Revenue (Appeal) (CIR) Order. The Appellate Tribunal has passed an order in favour of the Company for the above tax years; the CIR filed an appeal against the order of ITAT before the High Court of Sindh and with the Chairman ITAT for the tax year 2008 which is pending adjudication.

22.5 Consideration payable against acquisition of shares of MHPL

During the year 2010, the Company acquired additional shares of MHPL at an aggregate purchase consideration of Rs. 1,376 million.

Under the terms of share purchase agreement, the Company paid an amount of Rs. 946 million towards the purchase consideration of the shares. However, the balance consideration amounting to Rs. 430 million was payable by the Company on the occurrence of the following events:

- The Company determines that the Group tax relief for the years 2008 to 2010, as claimed by the Company, can be fully sustained or is unable to make such determination by June 2014; and
- The Company determines that MHPL will not incur an impairment loss in case of closure of its Saddar store or is unable to make such determination about the impairment by June 2014.

Accordingly, the above contingent balance payment on account of Group Tax Relief and impairment of Saddar Store of MHPL as referred above amounting to Rs. 251 million and Rs. 179 million respectively has been recognized fully as a liability in these financial statements (including Rs. 49.253 million payable to Agriauto Industries Limited and Rs. 0.995 million payable to Auvitronics Limited - both related parties).

As per the share purchase agreement, the payment is due as on June 30, 2014.

24.1.3 The Subsidiary company MHPL owns a retail store in Saddar Karachi. The Supreme Court of Pakistan, in its judgment released on December 18, 2009, cancelled the 90 years lease (for the area where Saddar store is located) granted by the Government of Pakistan (GoP) to the Army Welfare Trust (AWT) dated December 19, 2002 on the basis that it was granted without lawful authority. As a consequence, the Supreme Court of Pakistan also cancelled the sub-lease granted in favour of the MHPL by AWT dated July 31, 2006. MHPL was allowed three months from the date of judgment to remove its structures and installations from the subject land and hand-over the subject land's vacant possession to City District Government Karachi.		
MHPL filed a review petition against the judgment of the Supreme Court of Pakistan and GoP and AWT also filed review petitions on January 22, 2010. The matter has not been definitively decided up till now.		
During the year 2012, MHPL entered into an Operation Agreement with MHCCP whereby MHCCP was engaged to operate MHPL's AWT (Saddar) Store. Under the above referred Operation Agreement, MHPL is required to pay to MHCCP an Operation Fee of up to Rs. 792 million. Under the agreement between Metro BV and the Company, if the Review Petition filed by MHPL in the Supreme Court is definitively and conclusively decided adversely against MHPL prior to the payment of the entire amount of Rs. 792 million by MHPL to MHCCP, then MHPL is required to pay to MHCCP the balance of the Operation Fee (Rs. 792 million less the Operation Fee paid up to date of such decision of Review Petition). If MHPL fails to make such payment, the Company has agreed that it will make the payment of the same to MHCCP.		
However, no provision against the same has been considered necessary in these financial statements as the Company expects a favourable outcome of the review petition.	792,000	792,000

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's financial instruments are subject to credit risk, liquidity risk, foreign currency risk, interest rate risk and equity price risk. The Board of Directors oversee policies for managing each of these risks which are summarised below.

40.1 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Concentration of credit risk arises when a number of counterparties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the Company's performance to developments affecting a particular industry.

The Company is mainly exposed to credit risk on trade debts, short term investments and bank balances. The Company seeks to minimize the credit risk exposure through having exposure only to customers considered credit worthy and obtaining securities where applicable.

Quality of financial assets

The credit quality of financial assets is analyzed as under:

	2014	2013
Trade debts		
The analysis of trade debts is as follows:

40.2 LIQUIDITY RISK

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with the financial instruments. To guard against the risk, the Company has diversified funding sources and the assets are managed with liquidity in mind. The maturity profile is monitored to ensure that adequate liquidity is maintained.

For the year ended June 30, 2014

40.3 Foreign Currency risk

Foreign currency risk is the risk that the value of financial assets or a financial liability will fluctuate due to a change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions in foreign currency. The Company's exposure to foreign currency risks is as follows:

	2014	2013
Trade receivables (US Dollars)	317,894	263,667
Trade receivables (Euros)	-	171,160
Trade receivables (AED)	1,270,306	1,340,877
Trade receivables (SAR)	1,114,489	-
Trade and other payables (US Dollars)	1,138,002	1,631,230
Total (Euros) - receivables	-	171,160
Total (US Dollars) - payables	820,108	1,367,563
Total (AED) - receivables	1,270,306	1,340,877
Total (SAR) - receivables	1,114,489	-
The following significant exchange rates have been applied at the balance sheet date:		
US Dollars	98.75	98.80
Euros	134.46	128.85
AED	26.83	26.85
SAR	26.28	-

Sensitivity analysis:

The following table demonstrates the sensitivity to a reasonably possible change in the US dollar, Euro, AED and SAR's exchange rate, with all other variables held constant, of the Company's profit before tax and the Company's equity.

	Change in US dollars, Euros, AED & SAR's rate	Effect on profit or (loss) before tax	Effect on equity
	%	(Rupees In '000)	
2014	+ 10	(1,761)	(1,350)
	- 10	1,761	1,350
2013	+ 10	(7,706)	(5,621)
	- 10	7,706	5,621

40.4 Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term borrowings and cash in deposit account. The interest rates on these financial instruments are disclosed in the respective notes to the financial statements.

Sensitivity Analysis:

The following figures demonstrate the sensitivity to a reasonably possible change in interest rate, with all other variables held constant, of the Company's profit before tax:

	Increase / decrease in basis points	Effect on profit before tax
2014	+ 100	3,472
	- 100	(3,472)
2013	+ 100	6,302
	- 100	(6,302)

40.5 Equity price risks

Equity price risk is the risk that the fair value of future cashflows of financial instruments will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company's quoted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification. Reports on the equity portfolio are submitted to the Company's Board of Directors on a regular basis. The Board of Directors review and approve all equity investment decisions.

Notes to the Financial Statements

For the year ended June 30, 2014

41. CAPITAL RISK MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern and continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Company is currently financing its operations through equity and working capital.

42. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Investment in subsidiary companies and associates are carried at cost. The carrying values of all other financial assets and liabilities reflected in the financial statements approximate their fair values.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the balance sheet date. The estimated fair value of all other financial assets and liabilities is considered not significantly different from their book value.

Fair value hierarchy

The Company uses the following hierarchy for disclosure of the fair value of financial instruments by valuation techniques:

Level 1: Quoted prices in active markets for identical assets.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

As at June 30, 2014, the Company has only available-for-sale investments measured at fair value using level 1 valuation techniques.

43. NON ADJUSTING EVENT AFTER THE BALANCE SHEET DATE

The Board of Directors in its meeting held on August 26, 2014 has approved the following:

- (i) transfer of Rs. 754 million from unappropriated profit to general reserve; and
- (ii) payment of cash dividend of Rs. 2.50 per share for the year ended June 30, 2014 for approval of the members at the Annual General Meeting to be held on September 29, 2014.

44. GENERAL

44.1 The number of employees as at June 30, 2014 was 5,061 (2013: 6,181) and average number of employees during the year was 5,897 (2013: 6,094).

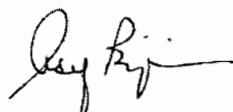

44.2 Corresponding figures have been re-arranged and reclassified, wherever necessary. No significant reclassifications / re-arrangements were made during the current year except as follows:

Reclassification from	Reclassification to	Rupees in '000
Stores, spares and loose tools	Property, plant and equipment	32,049

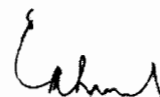

44.3 Figures have been rounded off to the nearest thousands.

45. DATE OF AUTHORISATION FOR ISSUE

These financial statements were authorized for issue on August 26, 2014 by the Board of Directors of the Company.
